Course of Instruction.

CLASSICAL.

FRESHMAN YEAR.

- FIRST TERM. . . { Vergil's *Æneid*—*Chase and Stuart*;
Homer's *Odyssey*—*Boise and Freeman*;
Geometry—*Chauvenet*.
- SECOND TERM. { Livy—*Chase and Stuart*;
Herodotus—*Boise and Freeman*;
Higher Algebra, completed—*Ray*.
- THIRD TERM. . { Livy, continued;
Thucydides—*Boise and Freeman*;
Trigonometry—*Schuyler*.
- FOURTH TERM. { Horace—*Chase and Stuart*;
Xenophon's *Memorabilia*—*Boise & Freeman*;
Surveying and Navigation—*Schuyler*.

SOPHOMORE YEAR.

- FIRST TERM. . { Cicero de *Senectute*—*Chase and Stuart*;
Demosthenes or Plato—*Boise & Freeman*;
Analytical Geometry—*Loomis*.
- SECOND TERM. { Cicero de *Amicitia*;
Greek, New Testament;
Natural Philosophy—*Kimball's Olmstead*.
- THIRD TERM. . { Tacitus, *Germania*;
Zoology;
Natural Philosophy, continued.
- FOURTH TERM. { Tacitus, *Agricola*;
Botany—*Gray*;
Natural Philosophy, completed.

JUNIOR YEAR.

FIRST TERM. . .	{ Logic— <i>Bowen</i> ; German Grammar— <i>Whitney</i> ; History of English Literature— <i>Shaw</i> .
SECOND TERM.	{ Rhetoric— <i>Whately</i> ; German, continued; Inorganic Chemistry— <i>Youmans</i> .
THIRD TERM. .	{ Physiology— <i>Huxley and Youmans</i> ; German, continued; Mineral Chemistry.
FOURTH TERM.	{ Astronomy— <i>Loomis</i> ; German continued; Organic Chemistry.

SENIOR YEAR.

FIRST TERM. .	{ Astronomy continued, or French; Geology— <i>Dana</i> ; History, Mediæval and Modern; Mental Philosophy— <i>Haven</i> .
SECOND TERM.	{ Evidences of Christianity— <i>Hopkins</i> ; History of Civilization— <i>Guizot</i> . Mental Philosophy, completed.
THIRD TERM. .	{ Moral Philosophy— <i>Haven</i> ; Philology— <i>Whitney</i> ; Butler's Analogy.
FOURTH TERM.	{ International Law; Political Economy— <i>Perry</i> ; U. S. Constitution and Civil Government.

SCIENTIFIC.

FRESHMAN YEAR.

- FIRST TERM. . . { Cicero's Orations—*Chase and Stuart*;
Geometry—*Chauvenet*;
German Grammar—*Whitney*.
- SECOND TERM. { Vergil's *Æneid*—*Chase and Stuart*;
Algebra, completed—*Ray*;
German Grammar and Reader, continued.
- THIRD TERM. . { Vergil's *Æneid*, continued;
Trigonometry—*Schuyler*;
German, continued.
- FOURTH TERM. { Vergil's *Æneid*, continued;
Surveying and Navigation—*Schuyler*;
German continued.

SOPHOMORE YEAR.

- FIRST TERM. . { Vergil's *Æneid*;
French or German;
Analytical Geometry—*Loomis*.
- SECOND TERM. { Livy, or De Senectute—*Chase and Stuart*;
French or German;
Mechanics—*Kimball's Revised Olmstead*.
- THIRD TERM. . { Livy continued, or De Amicitia;
French or German;
Mechanics, continued.
- FOURTH TERM. { Constitutional History of England;
French or German, completed.
Natural Philosophy—*Kimball's Olmstead*.

JUNIOR YEAR.

FIRST TERM. .	{ Logic— <i>Bowen</i> ; Differential Calculus. History of English Literature— <i>Shaw</i> .
SECOND TERM.	{ Rhetoric— <i>Whately</i> ; Integral Calculus; Inorganic Chemistry— <i>Youmans</i> ;
THIRD TERM. .	{ Physiology— <i>Huxley</i> ; Zoology; Mineral Chemistry.
FOURTH TERM.	{ Astronomy— <i>Loomis</i> ; Botany— <i>Gray</i> ; Organic Chemistry.

SENIOR YEAR.

FIRST TERM. .	{ Astronomy continued; Geology— <i>Dana</i> ; History, Mediæval and Modern; Mental Philosophy— <i>Haven</i> .
SECOND TERM.	{ Evidences of Christianity— <i>Hopkins</i> ; History of Civilization— <i>Guizot</i> . Mental Philosophy, completed.
THIRD TERM. .	{ Moral Philosophy— <i>Haven</i> ; Philology— <i>Whitney</i> ; Butler's Analogy.
FOURTH TERM.	{ International Law— <i>Woolsey</i> ; Political Economy— <i>Perry</i> ; U. S. Constitution and Civil Government— [<i>Andrews</i> .

Preparatory Courses.

CLASSICAL.

FIRST YEAR.

- FIRST TERM. . . { English Grammar—*Harvey*;
Higher Arithmetic—*Ray*;
Geography;
Reading and Spelling. -
- SECOND TERM. { English Analysis;
Higher Arithmetic, completed;
U. S. History—*Thalheimer*.
- THIRD TERM. . { First Lessons in Latin—*Jones*;
Elementary Algebra—*Ray*;
Civil Government—*Martin*.
- FOURTH TERM. { First Lessons in Latin, completed;
Elementary Algebra, completed;
Mathematical Geography and Map Drawing.

JUNIOR YEAR.

- FIRST TERM. . { Cæsar's Commentaries—*Chase and Stuart*;
Greek Grammar and Lessons—*Hadley*;
Physical Geography—*Guyot*.
- SECOND TERM. { Cæsar's Commentaries, continued;
Greek Grammar and Lessons, continued;
Physiology and Hygiene—*Hutchinson*.
- THIRD TERM. . { Cæsar, completed;
Xenophon's Anabasis—*Boise*;
Grecian History—*Smith*;
Natural Philosophy—*Quackenbos*.
- FOURTH TERM. { Cicero's Orations—*Chase and Stuart*;
Xenophon's Anabasis, continued;
Roman History—*Leighton*;
Natural Philosophy, completed.

SENIOR YEAR.

FIRST TERM. .	{ Cicero's Orations, continued; Anabasis and Jones's Greek Exercises; Composition and Rhetoric— <i>Hart</i> .
SECOND TERM.	{ Vergil's <i>Æneid</i> — <i>Chase and Stuart</i> ; Anabasis and Jones's Greek Exercises; Higher Algebra— <i>Ray</i> .
THIRD TERM. .	{ Vergil's <i>Æneid</i> , continued; Homer's <i>Iliad</i> — <i>Boise</i> ; Higher Algebra, continued.
FOURTH TERM.	{ Vergil's <i>Æneid</i> , continued; Homer's <i>Iliad</i> , continued; Plane Geometry— <i>Chauvenet</i> .

SCIENTIFIC.

JUNIOR YEAR

Same as First Year of Classical.

SENIOR YEAR.

FIRST TERM. .	{ Cæsar's Commentaries— <i>Chase and Stuart</i> ; Physical Geography— <i>Guyot</i> ; Composition and Rhetoric— <i>Hart</i> .
SECOND TERM.	{ Cæsar's Commentaries, continued; Higher Algebra— <i>Ray</i> ; Physiology and Hygiene— <i>Hutchinson</i> .
THIRD TERM. .	{ Cæsar, completed; Higher Algebra— <i>Ray</i> ; Natural Philosophy— <i>Quackenbos</i> .
FOURTH TERM.	{ Cicero's Orations— <i>Chase and Stuart</i> ; Plane Geometry— <i>Chauvenet</i> ; Roman History— <i>Leighton</i> ; Natural Philosophy, completed.

Conditions of Admission.

Candidates for admission to the Freshman Class will be examined in the branches named in the Preparatory Courses, which in the Classical include three books of Caesar, four orations of Cicero, and four books of Vergil; and in Greek three books each of Xenophon's Anabasis and Homer's Iliad. In Greek Grammar special attention is given to accent and euphony.

Students with proper recommendations will be admitted to such advanced standing as examinations may show them qualified for.

English and Normal Course.

This course is intended more especially for those who wish to prepare for teaching in the public schools, and will include instruction in the common English branches, and the best methods of organizing schools and classes and imparting instruction. Those who shall pass a satisfactory examination in the following studies, having been at least two terms in this institution, will be entitled to Diplomas indicating the completion of the course and literary fitness for teaching.

JUNIOR CLASS.—Reading, Orthography, Penmanship, Geography, Intellectual, Practical, and Higher Arithmetic, Elementary Algebra, English Grammar and Analysis.

SENIOR CLASS.—United States History, Composition and Rhetoric, Physiology and Hygiene, Elementary Philosophy, Physical Geography, Civil Government.

Classes will be organized in this department each term, and students can enter the course at any time and assume the standing for which they are fitted.

There is a general and well-founded complaint that scholars leaving the public schools to enter higher schools, or applying for certificates to teach, are sadly deficient in the ordinary English branches. Colleges have not always taken notice of this fact, and students have often been promoted and sometimes even graduated who are deficient in these branches. *Too much care can not be given to the fundamental branches,* and it is the aim of the Faculty to give them the attention demanded by the general deficiency in them, and by their own intrinsic value. Thorough instruction in Grammar, Orthography, Geography and Arithmetic, is given. All students are urged to apply themselves with care to the mastery of the general principles of English Grammar, to pay the strictest attention to Orthography, and to secure skill and facility in expressing their thoughts both orally and in writing.

General Information.

The buildings and grounds occupied by the College, estimated to be worth forty thousand dollars, have been donated, free of all incumbrance, by Mrs. Permelia Wood in accordance with the wishes of her former husband, the late Deacon N. Atwood. Funds have been furnished from the same source, and from other friends of the institution, to furnish the buildings and meet the running expenses. An endowment fund has been willed to the College.

The buildings consist of two beautiful and commodious brick structures, each three stories high above the basement. They are of modern architecture and well adapted to the purpose designed. College Hall has fourteen large rooms for Recitation, Library and Society Halls, and contains the Chapel. This building is surmounted by a dome which contains a fine bell, and a large four dial tower clock. College Hall is warmed throughout by two large furnaces in the basement.

The second building contains the rooms of the Preceptress, a Parlor, the Kitchen and Dining Hall for the Steward's use, and study and sleeping rooms for students.

Each room for students' use has a grate, and is furnished with a coal-box and shovel, a bedstead, two chairs, and a table.

To students who board in the College Dining Hall, there is no charge for room rent. Students furnish their own beds and bedding, but these may be rented extra, provided application be previously made.

The first term of the College was opened September 13, 1876. The first class to graduate completes its course at the close of the present school year.

Graduates from the Classical Course will receive the degree of A. B., from the Scientific Course the degree of B. S. Graduates from these courses of three years standing, who have sustained good moral characters and who have engaged in scientific or professional study during the period, will receive the degrees of A. M., and M. S., respectively.

Rhetorical exercises are required from all of the students, but special instruction and assistance are given to those who have not previously been accustomed to such exercises.

The Shakespearean Literary Society, has been organized by the students, and holds weekly public meetings which are sustained with much interest and merit.

Lectures are frequently delivered to the students on educational and general topics. Lectures have been delivered during the past year by Hon. John W. McCormick, and Supt. M. E. Hard of Gallipolis, O., D. W. C. Durgin, D. D., of Hillsdale, Mich., and G. H. Ball, D. D., of Buffalo, N. Y., and members of the Faculty.

Method of Teaching.

The instructors endeavor to pursue methods which have become established by experience and are now in use in our most successful institutions of learning. The College makes no claim, as new Colleges are somewhat prone to do, to have discovered or invented a new method which is to supply some great want of the age. Almost every conceivable educational experiment has been tried in the past. Naturally the fittest have best survived the test of actual application. These are subject to further development and the further progress of knowledge; but the history of past educational experiments is calculated to cast suspicion on attempts at revolution of methods generally used in successful American Colleges which have been adapted to meet American needs. To represent to the young that there is any short-cut to the mental discipline and knowledge of a thorough College course is in education what quackery is in medicine.

Instruction is given and progress noted mainly by means of daily recitations, and reviews and examinations at the end of each term. A record is kept both of recitations and examinations; but, recognizing the fact that it is one of the student's greatest temptations to sacrifice the future for ease and pleasure in the present, efforts are more especially directed to secure uniform every-day work; and a student's standing depends somewhat more upon the daily record than upon the examinations. Care is taken to avoid the error of appearing to make the record the chief object of recitation to the hindrance of proper oral instruction and profitable incidental discussion.

In short, in all the classes the effort is made to interest and to impart a practical knowledge of the subject studied.

Moral and Religious Influences.

The College is under the control of the Free Will Baptist denomination, a clause in the constitution requiring that two-thirds of the Board of Trustees be members of this Church, and it was founded to promote Christian education. The teachers and trustees consider true religion the foundation of the most valuable intellectual attainments, and use every means in their power to promote sound Christian principles among the students. The work of each day is opened with religious exercises, and students are expected to attend church and Sabbath school.

An efficient Y. M. C. A., organization exists among the students which sustains an interesting and well attended weekly prayermeeting. This organization was represented

at the late state Convention at Toledo, by R. F. Malaby. The present officers of the association are as follows: W. H. Davis, Pres.; E. J. Rees, Vice Pres.; Rose Hutsinpillar, Sec.; T. D. Davis, Treas.; H. A. Brandyberry, Cor. Sec.

There are no saloons in the vicinity, and there is probably no school in America to which parents can send their children with less danger to their moral welfare. The freedom from many of the temptations found in large cities and which usually attend student life may be urged as one important distinguishing feature of the College.

Library and Reading Room.

The students take a lively interest in the Library. It has a well selected variety of books. It is not sufficiently large however to meet the needs of the College. It is hoped that those who have means will continue to give to the library fund until the books of the College may be numbered by the thousand instead of by the hundred. A number of religious and secular papers are generously donated by the publishers to the reading room and others are furnished by subscription.

Apparatus.

The College is supplied with a considerable amount of philosophical apparatus including an air pump and accompanying pieces, a plate electric machine with Leyden jars, batteries for the development of chemical and magnetic electricity, telegraphic apparatus, electric telephone and other valuable pieces. Classes in Surveying and Engineering have the use of a transit and level, and other engineering apparatus.

Expenses.

Tuition, Common English Branches, per term,	\$5.00
“ “ “ “ “ year,	17.00
Tuition, Higher Branches, per term,	6.00
“ “ “ “ year,	20.00
Incidental Fee, per term,	2.00
Instrumental Music, per term of 24 lessons,	10.00
Use of Musical Instrument, per term,	2.00
(Elementary Single and Double Entry Book-Keeping is included in Higher Branches mentioned above.)	

The regular expenses for a school year will ordinarily be from \$110 to \$140.

All dues payable at least half a term in advance.

Board, with use of room, \$2.00 to \$2.25 per week.

Location &c.

The College is located at Rio Grande, Gallia County, Ohio, in a quiet, healthy locality, of much natural beauty. It is about five miles from Porter on the O. & W. Va., R. R., and about twelve miles from Oak Hill on the Portsmouth Branch of the Mar. and Cin., R. R.

Rio Grande College has now been in successful operation for six years. The last year has been the most successful in its history and its friends confidently appeal to its past record to indicate its worthiness of public patronage. The college authorities do not depend upon sensational methods, but endeavor to do thorough honest work, the true method by which knowledge and mental growth are acquired.

For Catalogues or other information apply to members of the Faculty, Rio Grande, Gallia Co., O.

CALENDAR.

TERMS AND VACATIONS.

1882.

First Term ends Friday, October 27.
Second Term begins Monday, 1-30 P. M. . . . October 30.

1883.

Holiday Vacation of two weeks.

Second Term ends Friday, January 19.
Third Term begins Monday, 1-30 P. M. . . . January 22.
Third Term ends Friday, March 30.
Fourth Term begins Monday, 1-30 P. M. . . . April 2.
Fourth Term ends Friday, June 8.

Vacation of Ten weeks.

First Term of Academic Year of 1883-4 begins, August 20.
First Term ends Friday, October 26.

ANNOUNCEMENTS.

Shakespearian Society Anniversary, Tuesday evening, June 5.

CLASSICAL.

FRESHMAN YEAR.

- FIRST TERM. . { Vergil's *Æneid*—*Chase and Stuart*;
Homer's *Odyssey*—*Boise and Freeman*;
Geometry—*Chauvenet*.
- SECOND TERM. { Livy—*Chase and Stuart*;
Herodotus—*Boise and Freeman*;
Higher Algebra, completed—*Ray*.
- THIRD TERM. . { Livy, continued;
Thucydides—*Boise and Freeman*;
Trigonometry—*Schuyler*.
- FOURTH TERM. { Horace—*Chase and Stuart*;
Xenophon's *Memorabilia*—*Boise & Freeman*;
Surveying and Navigation—*Schuyler*;

SOPHOMORE YEAR.

- FIRST TERM. . { Cicero de *Senectute*—*Chase and Stuart*;
Demosthenes or Plato—*Boise & Freeman*;
Analytical Geometry—*Loomis*.
- SECOND TERM. { Cicero de *Immortalitate*;
Greek, New Testament;
Natural Philosophy—*Snell's Olmstead*.
- THIRD TERM. . { Tacitus, *Germania*;
Zoology;
Natural Philosophy, continued.
- FOURTH TERM. { Tacitus, *Agricola*;
Botany;
Natural Philosophy, completed.

JUNIOR YEAR.

- FIRST TERM. . { Logic—*Bowen*;
German Grammar—*Whitney*;
Inorganic Chemistry—*Youmans*.
- SECOND TERM. { Rhetoric—*Whately*;
German, continued;
Mineral Chemistry.
- THIRD TERM. . { Physiology—*Huxley and Youmans*;
German, continued;
Organic Chemistry.
- FOURTH TERM. { Astronomy—*Loomis*;
German—*Schiller's Wilhelm Tell*;
Geology—*Dana*.

SENIOR YEAR.

- FIRST TERM. . { Astronomy continued, or French;
Evidences of Christianity—*Hopkins*;
History, Mediæval and Modern;
Mental Philosophy—*Haven*.
- SECOND TERM. { Butler's Analogy;
History of English Literature—*Shaw*;
U. S. Constitution and Civil Government;
Mental Philosophy, completed.
- THIRD TERM. . { Moral Philosophy—*Haven*;
Philology—*Whitney*;
History of Civilization—*Guizot*.
- FOURTH TERM. { International Law—*Woolsey*;
Political Economy—*Perry*;
Democracy in America—*De Tocqueville*.

SCIENTIFIC.

FRESHMAN YEAR.

- FIRST TERM. . { Cicero's Orations—*Chase and Stuart*;
 Geometry—*Clauvenet*;
 German Grammar—*Whitney*.
- SECOND TERM. { Vergil's Æneid—*Chase and Stuart*;
 Algebra, completed—*Ray*;
 German Grammar and Reader, continued.
- THIRD TERM. . { Vergil's Æneid, continued;
 Trigonometry—*Schuyler*;
 German, continued.
- FOURTH TERM. { Vergil's Æneid, continued;
 Surveying and Navigation—*Schuyler*;
 German—*Schiller's Wilhelm Tell*.

SOPHOMORE YEAR.

- FIRST TERM. . { Vergil's Æneid;
 French or German;
 Analytical Geometry—*Loomis*.
- SECOND TERM. { Livy, or De Senectute—*Chase and Stuart*;
 French or German;
 Mechanics—*Snell's Revised Olmstead*.
- THIRD TERM. . { Livy continued, or De Immortalitate;
 French or German;
 Mechanics, continued.
- FOURTH TERM. { Constitutional History of England;
 French or German, completed;
 Natural Philosophy—*Snell's Olmstead*.

JUNIOR YEAR.

FIRST TERM. .	{ Logic— <i>Bowen</i> ; Inorganic Chemistry— <i>Youmans</i> ; Differential Calculus.
SECOND TERM. .	{ Rhetoric— <i>Whately</i> ; Integral Calculus; Mineral Chemistry.
THIRD TERM. .	{ Physiology— <i>Huxley</i> ; Zoology; Organic Chemistry.
FOURTH TERM. .	{ Astronomy— <i>Loomis</i> ; Botany— <i>Gray</i> ; Geology— <i>Dana</i> .

SENIOR YEAR. *

FIRST TERM. .	{ Astronomy continued, or French; Evidences of Christianity— <i>Hopkins</i> ; History, Mediæval and Modern; Mental Philosophy— <i>Haven</i> .
SECOND TERM. .	{ Butler's Analogy; History of English Literature— <i>Shaw</i> ; U. S. Constitution and Civil Government; Mental Philosophy, completed.
THIRD TERM. .	{ Moral Philosophy— <i>Haven</i> ; Philology— <i>Whitney</i> ; History of Civilization— <i>Guizot</i> .
FOURTH TERM. .	{ International Law— <i>Woolsey</i> ; Political Economy— <i>Perry</i> ; Democracy in America— <i>De Tocqueville</i> .

Preparatory Course.

CLASSICAL.

JUNIOR YEAR.

- FIRST TERM. . { Cæsar's Commentaries—*Chase & Stuart*;
Greek Grammar and Lessons—*Hadley*;
Physical Geography—*Guyot*.
- SECOND TERM. { Cæsar's Commentaries, continued;
Greek Grammar and Lessons, continued;
Physiology and Hygiene—*Dalton*.
- THIRD TERM. . { Cæsar, completed;
Xenophon's Anabasis—*Boise*;
Grecian History—*Smith*;
Natural Philosophy—*Quackenbos*.
- FOURTH TERM. { Cicero's Orations—*Chase and Stuart*;
Xenophon's Anabasis, continued;
Roman History—*Leighton*;
Natural Philosophy, completed.

SENIOR YEAR.

- FIRST TERM. . { Cicero's Orations, continued;
Anabasis and Jones's Greek Exercises;
Composition and Rhetoric—*Hart*.
- SECOND TERM. { Vergil's Æneid—*Chase and Stuart*;
Anabasis and Jones's Greek Exercises;
Higher Algebra—*Ray*.
- THIRD TERM. . { Vergil's Æneid, continued;
Homer's Iliad—*Boise*;
Higher Algebra, continued.
- FOURTH TERM. { Vergil's Æneid, continued;
Homer's Iliad, continued;
Plane Geometry—*Chauvenet*.

SCIENTIFIC.

FIRST TERM. .	{ Cæsar's Commentaries— <i>Chase & Stuart</i> ; Physical Geography— <i>Guyot</i> ; Composition and Rhetoric— <i>Hart</i> .

FOURTH TERM.	{ Cicero's Orations— <i>Chase and Stuart</i> ; Plane Geometry— <i>Chauvenet</i> ; Roman History— <i>Leighton</i> ; Natural Philosophy, completed.

Conditions of Admission.

Students entering either of the Preparatory Courses will be Examined in English Grammar and Analysis, Geography, United States History, Civil Government, Higher Arithmetic, Elementary Algebra, and Jones's First Lessons in Latin. A class will be formed commencing in the latter at the beginning of the Third Term of each year.

Candidates for admission to the Freshman Class, in addition to the foregoing, will be examined in the studies of the Preparatory Course, which in the Classical includes three books of Cæsar, four orations of Cicero, and four books of Vergil; and in Greek, three books each of Xenophon's *Anabasis* and Homer's *Iliad*. In Greek Grammar special attention is given to accent and euphony.

English and Normal Course.

This course is intended more especially for those who wish to prepare for teaching in the public schools, and will include instruction in the common English branches, and the best methods of organizing schools and classes and imparting instruction. Those who shall pass a satisfactory examination in the following studies, having been at least two terms in this institution, will be entitled to Diplomas indicating the completion of the course and literary fitness for teaching.

JUNIOR CLASS—Reading, Orthography, Penmanship, Geography, Intellectual Practical and Higher Arithmetic, Elementary Algebra, English Grammar and Analysis.

SENIOR CLASS—United States History, Composition and Rhetoric, Physiology and Hygiene, Elementary Philosophy, Physical Geography, Civil Government.

Observe that classes will be organized in this department each term. Students can enter the course at any time and assume the standing for which they are fitted.

There is a general and well-founded complaint that scholars leaving the public schools to enter higher schools, or applying for certificates to teach, are sadly deficient in the ordinary English branches. Colleges have not always taken notice of this fact, and students have often been promoted and even graduated without anything done to supply this deficiency. *Too much care can not be given to the fundamental branches*, and it is the aim of the Faculty to give them the attention demanded by the general deficiency in them, and by their own intrinsic value. Thorough instruction in Grammar, Orthography, Geography and Arithmetic, is given. All students are urged to apply themselves with care to the mastery of the general principles of English Grammar, to pay the strictest attention to Orthography, and to secure skill and facility in the expression of their thoughts both orally and in writing.

Special attention is invited to the fact that we offer *Diplomas* to those who complete the course of English and Normal studies above given.

General Information.

The College occupies two beautiful and commodious buildings. They are of brick, three stories high above the basement, of modern architecture, and well adapted for the purpose designed. College Hall has fourteen large rooms for Recitation, Library and Society Halls, and contains the Chapel. This building is surmounted by a dome which contains a fine bell, and a large four dial tower clock. College Hall is warmed throughout by two large furnaces in the basement.

The second building contains the rooms of the Preceptress, a Parlor, the Kitchen and Dining Hall for the Steward's use, and study and sleeping rooms for students.

The general conveniences of this building and its admirable adaptation to the requirements of a students' dormitory are unsurpassed.

Each room for students' use has a grate, and is furnished with a coal-box and shovel, a bedstead, two chairs, and a table.

To students who board in the College Dining Hall, there is no charge for room rent. Students furnish their own beds and bedding, but these may be rented extra, provided application be previously made.

Method of Teaching.

The instructors endeavor to pursue methods which have become established by experience and are now in use in our most successful institutions of learning. The College makes no claim, as new Colleges are somewhat prone to do, to have discovered or invented a new method which is to supply some great want of the age. Almost every conceivable educational experiment has been tried in the past. Naturally the fittest have best survived the test of actual application. These are subject to further development and the further progress of knowledge; but the history of past educational experiments is calculated to cast suspicion on attempts at *revolution* of methods generally used in successful American Colleges which have been adapted to meet American needs. *To represent to the young that there is any short-cut to the mental discipline and knowledge of a thorough College course is in education what quackery is in medicine.*

Instruction is given and progress noted mainly by means of daily recitations, and reviews and examinations at the end of each term. A record is kept both of recitations and examinations; but, recognizing the fact that it is one of the student's

greatest temptations to sacrifice the future for ease and pleasure in the present, efforts are more especially directed to secure uniform every-day work; and a student's standing depends somewhat more upon the daily record than upon the examinations. Care is taken to avoid the error of appearing to make the record the chief object of recitation to the hindrance of proper oral instruction and profitable incidental discussion.

Great care is exercised in the selection of text books, but neither student nor instructor is confined to them. For example, in connection with Geography, selections are read from books of travel, and valuable information given concerning the date line and other topics of Mathematical Geography, which are not treated in any American Geographies. In Surveying and Leveling, also, the class is taken into the field with transit and level and given practical problems.

In short, in all the classes the effort is made to interest and to impart a practical knowledge of the subjects studied.

Moral and Religious Aim of the College.

The College is under the control of the Free Will Baptist denomination, a clause in the constitution requiring that two-thirds of the Board of Trustees be members of this Church, and it was founded to promote Christian education. The teachers and trustees consider true religion the foundation of the most valuable intellectual attainments, and use every means in their power to promote sound Christian principles among the students. The work of each day is opened with religious exercises, and students are expected to attend church and Sabbath school.

Within the past year an organization of the Y. M. C. A., consisting of 31 members, was formed. This society was represented at the International Convention held at Cleveland May 25-29, 1881, by Mr. Thomas D. Davis. The weekly prayer-meeting at the College is carried on under its auspices, and other religious work performed as there is opportunity. The present officers of the association are as follows: R. F. Malaby, Pres.; H. F. Bolton, Vice Pres.; Minnie D. Crawford, Sec.; S. P. Humphrey, Treas.

There are no saloons in the vicinity, and students will find exemption from many temptations found in large towns and cities.

Library and Reading Room.

The students take a lively interest in the Library. It has a well selected variety of books. It is not sufficiently large however to meet the needs of the College. It is hoped that those who have means will continue to give to the library fund until the books of the College may be numbered by the thousand instead of by the hundred. A number of Religious and Political papers are generously donated by the publishers to the reading room and others are furnished by subscription.

Apparatus.

The College is supplied with a considerable amount of philosophical apparatus including an air pump and accompanying pieces, a plate electrical machine with Leyden jars, batteries for the development of chemical and magnetic electricity, telegraphic apparatus, electric telephone and other valuable pieces.

Classes in Surveying and Engineering have the use of a transit and level, and other engineering apparatus.

Expenses.

Tuition, Common English Branches, per term,	\$5.00
“ “ “ “ “ year,	17.00
Tuition, Higher Branches, per term,	6.00
“ “ “ “ “ year,	20.00
Incidental Fee, per term,	2.00

EXTRA CHARGES AS FOLLOWS;

Instrumental Music, per term of 24 lessons,	\$10.00
Use of Musical Instrument, per term,	2.00
Penmanship, Book-Keeping, and Vocal Music, 20 lessons, 1.00	
(Elementary Single and Double Entry Book-Keeping is included in Higher Branches mentioned above.)	

The *regular expenses* for a school year will ordinarily be from \$110 to \$140.

All dues payable at least half a term in advance.

Board, with use of room, \$2.00 to \$2.25 per week.

The first term of the College was opened September 13, 1876. Owing to the short time it has been in operation its highest class at present is the Junior Class of the Classical Course.

Graduates from the Classical Course will receive the degree of A. B., from the Scientific Course the degree of B. S.

Rhetorical exercises are required from all of the students, but special instruction and assistance are given to those who have not previously been accustomed to such exercises.

The Shakespearean Literary Society, has been organized by the students, and holds weekly public meetings which are sustained with much interest and merit.

Lectures are frequently delivered to the students on educational and general topics. Lectures have been delivered during the past year by State Commissioner H. F. DeWolf of Columbus, O., Rev. D. L. Chapin of Pomeroy, O., and members of the Faculty.

The Buildings and grounds, worth forty thousand dollars have been donated, free of all incumbrance, by Mrs. Permelia Wood, in accordance with the wishes of her former husband, the late Deacon N. Atwood. Funds have been supplied from the same source, and from other friends of the College, to furnish the buildings, and meet the running expenses.

Rio Grande College has now been in successful operation for five years. The last year has been the most successful in its history and its friends confidently appeal to its past record to indicate its worthiness of public patronage. The college authorities do not depend upon sensational methods, but endeavor to do thorough honest work, the true method by which knowledge and mental growth are acquired.

The College is located at Rio Grande, Gallia County, Ohio, in a quiet, healthy locality, of much natural beauty. It is about five miles from Porter on the O. & W. Va., R. R., and about twelve miles from Oak Hill on the Portsmouth Branch of the Mar. and Cin., R. R.

For Catalogues or other information apply to members of the Faculty, Rio Grande, Gallia Co., O.

CALENDAR.

TERMS AND VACATIONS.

1881.

First Term ends Friday, October 28.
 Second Term begins Monday, 1-30 P. M. October 31.

1882.

Holiday Vacation of two weeks.

Second Term ends Friday, January 20.
 Third Term begins Monday, 1-30 P. M. January 23.
 Third Term ends Friday, March 31.
 Fourth Term begins Monday, 1-30 P. M. April 3.
 Fourth Term ends Friday, June 8.

Vacation of ten weeks.

First Term of Academic Year of 1882-3 begins, August 21.
 First Term ends Friday, October 27.

ANNOUNCEMENTS.

Shakespearian Society Anniversary, Tuesday evening, June 6.
 Annual Meeting of the Trustees, Wednesday, 9 A. M. June 7.
 Annual Lecture, Wednesday evening, June 7.
 Sixth Anniversary of the College, Thursday, June 8.

Conditions of Admission.

Students entering either of the Preparatory Courses will be Examined in English Grammar and Analysis, Geography, United States History, Civil Government, Higher Arithmetic, Elementary Algebra and Jones' First Lessons in Latin. A class will be formed commencing in the latter at the beginning of the Third Term of each year.

Candidates for admission to the Freshman Class, in addition to the foregoing, will be examined in the studies of the Preparatory Courses, which in the Classical includes three books of Cæsar, four orations of Cicero, and four books of Vergil; and in Greek, three books each of Xenophon's Anabasis and Homer's Iliad. In Greek Grammar special attention is given to accent and euphony.

English and Normal Course.

This course is intended more especially for those who wish to prepare for teaching in the public schools, and will include instruction in the common English branches, and the best methods of organizing schools and classes and imparting instruction. Those who shall pass a satisfactory examination in the following studies, having been at least two terms in this institution, will be entitled to Diplomas indicating the completion of the course and literary fitness for teaching.

JUNIOR CLASS.—Reading, Orthography, Penmanship, Geography, Intellectual Practical and Higher Arithmetic, Elementary Algebra, English Grammar and Analysis.

SENIOR CLASS.—United States History, Composition and Rhetoric, Physiology and Hygiene, Elementary Philosophy, Physical Geography, Civil Government.

Observe that classes will be organized in this department each term, students can enter the course at any time and assume the standing for which they are fitted.

Remarks on the English and Normal Course.

There is a general and well-founded complaint that scholars leaving the public schools to enter higher schools, or applying for certificates to teach, are sadly deficient in the ordinary English branches. Colleges have not always taken notice of this fact, and students have often been promoted and even graduated without anything done to supply this deficiency. *Too much care can not be given to the fundamental branches,* and it is the aim of the Faculty to give them the attention demanded by the general deficiency in them, and by their own intrinsic value. Thorough instruction in Grammar, Orthography, Geography and Arithmetic, is given. All students are urged to apply themselves with care to the mastery of the general principles of English Grammar, to pay the strictest attention to Orthography, and to secure skill and facility in the expression of their thoughts both orally and in writing.

Special attention is invited to the fact that we offer *Diplomas* to those who complete the course of English and Normal studies above given.

General Information.

BUILDINGS.

The College occupies two beautiful and commodious buildings. They are of brick, three stories high above the basement, of modern architecture, and well adapted for the purpose designed. College Hall has fourteen large rooms for Recitation, Library and Society Halls, and contains the Chapel. This building is surmounted by a dome which contains a fine bell, and a large four dial tower clock, College Hall is warmed throughout by two large furnaces in the basement. The second building contains the rooms of the Preceptress, a Parlor, the Kitchen and Dining Hall for the Steward's use, and study and sleeping rooms for students.

Each room for students' use has a grate, and is furnished with a coal-box and shovel, a bedstead, two chairs, and a table. Each floor is connected with the coal room in the basement by an elevator. The general conveniences of this building and its admirable adaptation to the requirements of a student's dormitory are unsurpassed. To students who board in the College Dining Hall there is no charge for room rent. Students furnish their own beds and bedding, but these may be rented extra provided application be previously made. The boarding arrangements under the management of the present Stewardess, Mrs. T. E. Peden, are proving very satisfactory.

METHOD OF TEACHING.

The instructors endeavor to pursue methods which have become established by experience and are now in use in our most successful institutions of learning. The College makes no claim, as new Colleges are somewhat prone to do, to have discovered or invented a new method which is to supply some great want of the age. Almost every conceivable educational experiment has been tried in the past. Naturally the fittest have best survived the test of actual application. These are subject to further development and the further progress of knowledge; but the history of past educational experiments is calculated to cast suspicion on attempts at *revolution* of methods generally used in successful American Colleges which have been adapted to meet American needs. *To represent to the young that there is any short-cut to the mental discipline and knowledge of a thorough College course is in education what quackery is in medicine.*

Instruction is given and progress noted mainly by means of daily recitations, and reviews and examinations at the end of each term. A record is kept both of recitations and examinations; but, recognizing the fact that it is one of the student's greatest temptations to sacrifice the future for ease and pleasure in the present, efforts are more especially directed to secure uniform every-day work; and a student's standing depends somewhat more upon the daily record than upon the examinations. Care is taken to avoid the error of appearing to make the record the chief object of recitation to the hindrance of proper oral instruction and profitable incidental discussion.

Great care is exercised in the selection of text books, but neither student nor instructor is confined to them. For example, in connection with Geography, selections are read from books of travel, and valuable information given concerning the date line and other topics of Mathematical Geography, which are not treated in any American Geographies. In Surveying and Leveling, also, the class is taken into the field with transit and level and given practical problems.

In short, in all the classes the effort is made to interest and to impart a practical knowledge of the subjects studied.

MORAL AND RELIGIOUS AIM OF THE COLLEGE.

The College is under the control of the Free Will Baptist denomination, a clause in the constitution requiring that two-thirds of the Board of Trustees be members of this Church, and it was founded to promote Christian education. The teachers consider true religion the foundation of the most valuable intellectual attainments, and use every means in their power to promote sound Christian principles among the students. The work of each day is opened with religious exercises, and students are expected to attend church and Sabbath school. A well-sustained prayer meeting is regularly held by the students.

There are no saloons in the vicinity, and students will find exemption from many temptations found in large towns and cities.

One hundred and twenty-eight volumes have been added to the Library within the past year, nearly all of them works of great excellence. The students, and others, have taken very commendable interest in reading them. The friends who gave the means to purchase these books may rest assured that their money is doing good. It is hoped that those who have means will continue to give to the library fund until our books are numbered by the thousand instead of by the hundred. A number of Religious and Political papers are generously donated by the publishers to the reading room and others are furnished by subscription. An effort will be made to increase the number and have all shades of religious and political opinion represented.

The apparatus formerly used by Cheshire Academy, has been given to the College. It contains a plate electrical machine, a solar microscope, a magneto-electric battery, and other valuable pieces. A cash subscription of seventy five dollars has been raised for the immediate purchase of additional apparatus.

EXPENSES.

Tuition, Common English, Branches, per term,	\$5 00
.. " " " " year,	17 00
Tuition, Higher Branches, per term,	6 00
" " " " year,	20 00
Incidental Fee, per term,	2 00

Instrumental Music, per term of 24 lessons,	\$10 00
Use of Musical Instrument, per term,	2 00
Penmanship, Book-Keeping, and Vocal Music, 20 lessons, 1 00	
(Common School Book-Keeping is included in the Higher Branches.)	

The *regular expenses* for a school year will ordinarily be from \$110 to \$140.

All dues payable at least half a term in advance.

Board, with use of room, \$2 00 to \$2 25 per week.

The first term of the College was opened September 13, 1876. Owing to the short time it has been in operation its highest class at present is the Junior Class of the Classical Course.

Graduates from the Classical Course will receive the degree of A. B., from the Scientific Course the degree of B. S.

Rhetorical exercises are required from all of the students, but special instruction and assistance are given to those who have not previously been accustomed to such exercises.

The Shakespearean Literary Society, has been organized by the students, and is kept up with a fair degree of interest.

Lectures are frequently delivered to the students on educational and general topics. The lectures of the past year have been delivered by W. H. Scott, President of Ohio University, W. Colegrove, late President of W. Va. College, Rev. O. D. Patch of Marion, O., Hon. Irvine Dungan of Jackson, O., and the different members of the Faculty.

The Buildings and grounds, worth forty thousand dollars, have been donated, free of all incumbrance, by Mrs. Permelia Wood, in accordance with the wishes of her former husband, the late Deacon N. Atwood. Funds have been supplied from the same source, and from other friends of the College, to furnish the buildings, and meet the running expenses.

Rio Grande College has now been in successful operation for four years, and its friends confidently appeal to its past record to indicate its worthiness of public patronage. The college authorities do not depend upon sensational methods, but endeavor to do thorough honest work, the true method by which knowledge and mental growth are acquired.

The College is located at Rio Grande, Gallia County, Ohio, on the stage line between Oak Hill and Gallipolis, in a quiet, healthy locality, of much natural beauty. It is about five miles from the Ohio and W. Virginia R. R.

For Catalogues or other information apply to members of the Faculty, Rio Grande, Gallia Co., O.

CALENDAR.

CALENDAR.

TERMS AND VACATIONS.

1880.

First Term ends Friday afternoon, October 29.

Second Term begins Monday, 9 A. M. November 1.

1881.

Holiday Vacation of two weeks and two days.

Second Term ends Friday afternoon, January 21.

Third Term begins Monday, 9 A. M. January 24.

Third Term ends Friday afternoon, April 1.

Fourth Term begins Monday, 9 A. M. April 4.

Fourth Term ends Thursday, June 9.

Vacation of ten weeks and four days.

First Term of Academic Year of 1881-82 begins, August 22.

First Term ends Friday afternoon, October 28.
